

Stannic Chloride Anhydrous

Product data

Chemical formula	SnCl ₄
CAS No	7646-78-8
Solubility	Soluble in most hydrocarbons, dissolves in water with high heat evolution and hydrolysis
Delivery form	Liquid
Color	Colorless and transparent

Analysis

Purity	≥99.5%
Free chloride	≤0.02%

Application

Glass industry:

-For coating of glass surfaces

Chemical industry:

-For production of tin chemicals Catalyst for chlorination and condensation

Storage

Stannic Chloride Anhydrous has a shelf life up to 12 months if stored correctly in dry areas and in its original closed packaging.

Packaging

50kg/drum

Special advice for security

Information concerning:

- classification and labelling according to the regulations governing transport and hazardous chemicals
 - protective measures for storage and handling
 - safety measures in case of accident and fire
 - toxicity and ecological effects
- are given in our material safety data sheets.
